

Academy of Osseointegration

Certificate in Implant Dentistry

The AO Certificate in Implant Dentistry provides an opportunity for AO members to demonstrate that they have attained a level of education and experience that verifies their core knowledge and clinical skills in the field of implant dentistry.

To qualify for an AO Certificate in Implant Dentistry, applicants will be evaluated on three criteria:

1) Continuing Education and Core Knowledge

Applicants must present evidence (Letter of Verification, certificates, etc. on formal letterhead from the certifying organization) of verifiable CE over a five-year period, on implant-related material, totaling 200 hours in 18 specific categories. 85 of those 200 continuing education hours must be considered "core knowledge". The required categories and subsequent core knowledge are defined in the Continuing Education Requirement portion of the application.

The following exceptions apply:

- Members who possess a mono-specialty certificate, AEGD certificate or GPR certificate **older than 5 years** will have the 85 hours of required core knowledge credits waived.
- Members who have a mono-specialty certificate, AEGD certificate or GPR certificate **within the last 5 years** will have the 200 CE hours requirement waived.

Please see the Continuing Education and Core Knowledge Requirements Form for additional information.

2) Clinical Skills

Each applicant will have to submit four case presentation forms (using the AO Case Presentation Template, along with supporting images) in the following categories:

- Single tooth;
- Fixed partial denture (fixed bridge);
- Full arch fixed reconstruction;
- Over denture.

Each case presentation will require a Patient Consent Form from the patient that is notarized.

3) Commitment to AO

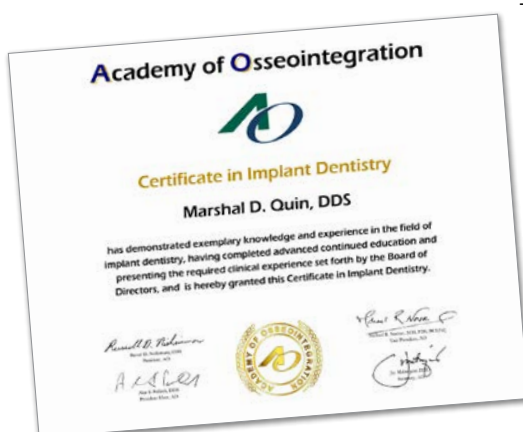

The applicant must be a current member of the AO and have been a member for the past three consecutive years as well as having attended at least two AO Annual Meetings during that time.

The AO Fellowship and Certificate in Implant Dentistry Committee will review and approve completed applications. Candidates who submit applications deemed incomplete will be notified of missing materials by the AO office. Applicants will receive an email within 2-4 weeks notifying them of their acceptance.

The AO Certificate will be dated and valid for one year only and automatically renew each time a successful applicant renews his or her AO membership.

Questions regarding the AO Certificate in Implant Dentistry can be sent to certificate@osseo.org or you can contact the AO office at 847-439-1919.
